

PROGRAM PROFILE

Information and Communication Technology (ICT)

Why Study This Program

ICT is the foundation of Rwanda’s digital economy. This program builds your skills in computer systems, networking, web design, and digital entrepreneurship.

Why Study at MIPC

We combine **technology, business, and creativity**. Students learn to design software, manage networks, and innovate digital solutions for real-world problems.

Future Careers

- IT Support Technician
- Network Administrator
- Web or App Developer
- Data Analyst
- ICT Project Assistant

Job Occupations & Opportunities

Graduates find jobs in public institutions, private companies, banks, and start-ups — or build their own digital enterprises.

Partner Companies

- Rwanda Information Society Authority (RISA)
- Broadband Systems Corporation (BSC)
- MTN Rwanda & Airtel Rwanda
- Local tech hubs like kLab, FabLab, and Norrsken
